## How to Upgrade CAM6181 Firmware

**Application Notes** 

Version <1.0>

## 1 Preface

This document will instruct user to upgrade CAM6181 firmware. In general, the CAM6181 will have below upgrading files:

- Main file
- Switch board file
- Software file

The CAM6181 need to hardware reset during upgrade process then camera IP address will return to **192.168.0.250**. To prevent IP collision we recommend upgrade one camera at one time if user has multiple CAM6181.

If you found the main file and switch board file version is the same as currents, user only needs to upgrade software files.

## 2 Upgrade Software file

- 2.1 Access CAM6181 via IE6 or above version. The default IP address is 192.168.0.250.
- 2.2 Go to System/Software upgrade.
