Product Lineup - SurveOne

- An exclusive web-based easy system management tool at no cost
 - NVR/camera real-time system status overview and monitoring
 - NVR/camera configuration copy , restore and backup
 - NVR/camera real-time event log information
 - Easy to check the status in a browser by using HTTP

Benefits from Surveon Solutions

- **Expand your system at ease**
 - With highly scalable and flexible system, it's easy to expand the current system by adding licenses, not adding another physical NVR
 - Save time and efforts re-constructing backbone structure on the site
- **Get everything your need at one stop**
 - Hassel-free integration within the systems
 - Lower risk of data loss during integration process
- **Reduce maintenance cost with robust quality**
 - Industrial-grade components to reduce maintenance cost
 - Cableless and redundant design for easy maintenance
- **Obtain smooth hands-on experience**
 - Intuitive UI design for easy installation and operation

Success Cases

City Surveillance

- Kaohsiung City, Taiwan
- 3000CH 3MP camera

Public Utility

- KL Tower, Malaysia
- 3 MP cameras + IP SAN

Airport

- Singapore Airport
- 3 MP camera + 120-day recording
- H/W RAID NVR + Storage

Industrial

- Omnilife, Colombia
- 3MP camera + 120-day recording
- H/W RAID NVR system

Banking

- Agribank, Vietnam
- SMR RAID Recorders + Surveon SCC (CMS)

Education

- Kainan University, Taiwan
- H/W RAID NVR + 48TB

Worldwide Partners

The background is a deep blue gradient with abstract, flowing white and light blue lines that create a sense of movement and depth. The lines are most prominent on the left side, curving and overlapping.
