## PoE Series - 15.4Watt 10/100M

### PoE Injector

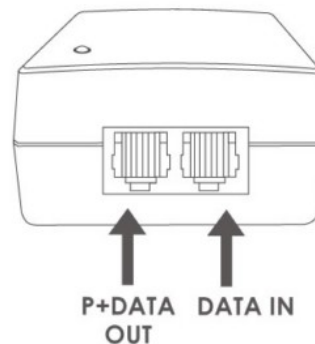

EAN Code : 4712757151565

The POE-S48V2, IEEE 802.3af compatible, Power over Ethernet Injector provides DC 48V over Ethernet cables. Unlike existing Power over Ethernet Injectors, the POE-S48V2 provides 10/100Mbps Fast Ethernet connection ability.

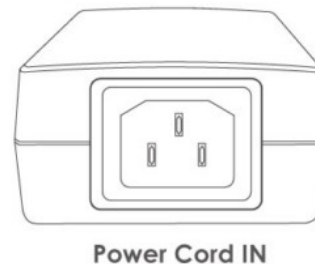

The POE-S48V2 Power over Ethernet (POE) adapter is designed to supply operational power to wireless LAN devices such as PoE access point bridges, routers, and surveillance cameras. With Power over Ethernet devices installed, the system administrator only has to use a single RJ-45 Ethernet cable to carry both power and data to each device. Some additional benefits of POE-S48V2 include cost saving, convenience in network planning, and higher reliability.
